### **DETAILED ACTION**

## Response to Amendment

1. Applicant's amendment was received on 12/9/05, and has been entered and made of record. Currently, claims 1-19 are pending.

## Response to Arguments

2. Applicant's arguments, see pages 8-11, filed 12/9/05, with respect to the rejection of claims 1-19, cited in the Office action dated 9/9/05 as being unpatentable over Teitzel et al. (U.S. Patent Number 5,533,170) in view of Pulli et al. (U.S. Patent Number 6,078,331) have been fully considered and are persuasive. The rejection of claims 1-19 has been withdrawn.

# Allowable Subject Matter

- 3. Claims 1-19 are allowed.
- The following is an examiner's statement of reasons for allowance: 4.

Regarding claims 1, 14, 15, and 19, in the examiner's opinion, it would not have been obvious to have the systems, as claimed include the features of a first conversion step fracturing the input data into writing fields including at least a portion of a writing swath, and a second conversion of cutting the geometries into scan lines, being operated in at least two beam processor units simultaneously.

The closest prior art, previously noted as Teitzel et al. (U.S. Patent Number 5,533,170) fails to expressly disclose these features. Further, upon reconsideration, the previously cited reference

Art Unit: 2625

of Pulli et al. (U.S. Patent Number 6,078,331) fails to expressly teach of writing patterns on a light sensitive surface, of fracturing the input data into writing fields that include at least a portion of a writing swath, and fails to teach if the second conversion step is performed simultaneously but on different writing fields. Because of these reasons, the claims are rendered allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joe Pokrzywa whose telephone number is (571) 272-7410. The examiner can normally be reached on Monday-Friday, 9:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward L. Coles can be reached on (571) 272-7402. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
